

August 18, 2020 – Press Release

Chilliwack, British Columbia - Mormak Equipment celebrates impressive 40-year partnership with Terex Cedarapids.

Mormak Equipment—based in Western Canada—is an international industry leader for designing and manufacturing customized aggregate equipment.

This year Mormak proudly celebrates their remarkable 40-year relationship with valued partner Terex Cedarapids. From the beginning, Mormak has been able to count on the reliability of Cedarapids® parts to build their custom plants. Mormak values the history, engineering technology and longstanding support of Terex Cedarapids.

Mormak is known for manufacturing the most durable, functional and powerful aggregate equipment in Western Canada and understands the importance of such key vendor relationships. “Our customers count on the durability of our plants to meet their production targets,” said Mormak President, Jason Nazar. “And the Cedarapids® parts are an integral part of the reliability we commit to.”

Mormak and its team of Cedarapids trained technicians look forward to a continued strong partnership. “We share a history of quality, and we believe in a strong heritage for a strong future,” said Nazar. “We’re ready for another 40 years in the aggregate industry”.

About Mormak Equipment – www.mormak.com

Founded in 1980, Mormak Equipment is the industry leader for expertise in designing and manufacturing customized aggregate equipment. Mormak is the exclusive dealer for Cedarapids, Simplicity, Canica, Eagle Iron Works, RimTec, Spaulding, Tesab and Finlay parts for Western Canada. With a combined 60 years of experience in parts and as operators, Mormak prides itself on its history of one of the most trusted, experienced and well-stocked aggregate equipment parts departments in North America. Mormak has offices in British Columbia (Vernon-HQ, Chilliwack) and Alberta (Calgary, Edmonton).
