A MESSAGE FROM MORMAK

For more than 40 years, Mormak Equipment. has been helping quarry and mine owners meet their targets with the most durable, functional and powerful aggregate equipment in western Canada.

After working in the aggregate equipment industry as a mechanic, service manager and salesman, Bob Mohr founded Mormak Equipment so he could give customers turn-key and custom fabricated machinery built to last as well as post-sales service that's second to none.

Mormak Equipment. opened in 1980 in Vernon, BC, ideally located near Kamloops and halfway between Vancouver and Calgary.
